Title: The Suicide Device

Author: L

Entered: 7/2/1999
Subject: Unexplained

Once the suicide
device is constructed,
we`ll have the means
to further our studies.
Unfortunately, we may
need to try to speed up
the process, since that
meddling Seer seems
to be on our tail. I don`t
think he`s learned
much, and some of the
nearby town-folk seem
to believe he`s up to
something. These two
things may slow him
down enough to buy us
some time.

On another note, there
are rumors of spottings
of a blue ghost. Could
this be the lurker? If so,
our time may be at
hand. However, there
is much work to be
done.

You must now start
colelcting magical
devices and reagents,
and we will need to
collect several lost-
ones.
As always, destroy this

message after reading
it.
